

Holistic Management in a Single Page

First, we define the **WHOLE UNDER MANAGEMENT**...

...that we manage towards achieving our **HOLISTIC GOAL**...

...by employing **DECISION TESTING PROTOCOLS**...

...that guide our use of the **TOOLS FOR MANAGING ECOSYSTEMS**...

...towards optimizing the 4 **ECOSYSTEM PROCESSES**...

Management practices are developed using well defined **PLANNING PROCEDURES**...

...that are informed by Holistic **MANAGEMENT GUIDELINES**...

...and constantly refined by intentional **FEEDBACK LOOPS**.
